SEARCH

Inspection of representation of Trade Marks may, on payment of the prescribed fees, made at the Trade Marks Registry, between 9:00 a.m. to 3:00 p.m. Monday to Thursday (Except Friday from 9:00 a.m. to 1:00 p.m.).

APPLICATION NUMBERS

In each advertisement the number stated before the specification of goods indicates the number of the application.

OPPOSITION

Notice is hereby given that any person who has grounds of opposition to the registration of any of the marks advertised herein according to classes under the heading "Application Advertised before Registration" may, within two months from the date of this Journal, lodge Notice of Opposition on Form T.M-5 accompanied by the prescribed fee of Rs.6,000/-.

The period for lodging Notice of Opposition may be extended by the Registrar if he thinks so and upon such terms as he may direct.

Request for extension of time shall always bear the reference the name of prospective opponent and the number of Trade Marks, if any, to be made basis of opposition.

It is desirable that formal opposition should not be lodged until notice has been given by letter to the applicant for registration, so as to afford him an opportunity of withdrawing his application before the expense of preparing the Notice of Opposition is incurred. Failure to give such notice may be taken into account in considering any application by an opponent for an order of costs if the opposition is uncontested by the applicants.

NOTIFICATION

It is notified for general information that Form TM-1, must be completed in all respects and informations asked for must be provided. Instructions for Completions of TM-1, given on this form in the Rules should be followed. The instruction at (f) and (g) relating to user and signature are clear and noncompliance leads to over work for the Trade Marks Registry and un-necessary delay for the Applicants. Incomplete forms will not be received, and if received by POST will not be examined at their turn, till they are complete in all respects.

EXTENSION OF TIME

2. It has been observed that in opposition and Rectification cases, both the parties or their Agents/Advocates make requests on Form TM-56 for Extension of time, which are liberally granted to the parties. This practice not only delays the disposal of cases, but also results in accumulation of work. In order to discourage this practice, it is notified for general information that no unnecessary extension of time will be allowed except substantiated by cogent and convincing reasons and that mere collection of data or compilation of paper would not be sufficient reasons for asking such extension. All concerned should note and cooperate for early disposal of contested cases. Besides requests for extension of time in opposition cases must be accompanied by valid power of authorization, without which such requests are liable to be treated as un-authorized.

AUTHENTICATION OF FOREIGN DOCUMENTS AND POWER OF ATTORNEY.

3. It is notified for general information that all Foreign Documents and the Power of Attorneys shall be executed before, and authenticated by a Notary Public, or any Court, Judge, Magistrate, Consul or Vice Consul, or Representation of the Central Government as enumerated in Section 85 of the Evidence Act.

Goods or services: 9 Electric and electronic apparatus and instruments: electric and electronic apparatus and instruments, all for the receiving, transmitting, storing, relaying, inputting or outputting of data: digital central office switching systems, telephone and data exchanges, private branch exchanges (PBX), telephones, asynchronous transfer mode switches, packet switching systems, fiber-optic transmission systems, digital transmission systems, multiplexers, submarine cable systems, CATV (Cable Television) systems, teleconferencing systems, mobile communication systems, microwave communication systems, satellite communication systems (satellite-mounted and ground support communications equipment), laser communications equipment, television and broadcasting equipment, video and studio equipment, broadcast transmission machines and apparatus; optical transmitters and receivers; auto loudness controllers; voice limiter compressors; loudness meters; computer audio interface and remote controllers; network audio transmitters; network audio receivers; network audio interface and switch boxes; video servers; automatic program control system consisting of video servers, switches; electronic circuit components and electromagnetic structures for selective frequency control within the electromagnetic spectrum, namely, crystal-controlled oscillator circuits, transducers and electromechanical switches, coaxial and wave guide switches and telecommunications power signal routing switches; cameras; digital field pickup unit apparatus; digital terrestrial broadcasting transmitting apparatus; digital audio and video receivers, IPTV (Internet protocol TV) set top boxes, digital receivers for receiving cable television, digital receivers to receive terrestrial television using format ATSC (Advanced Television Systems Committee), digital receivers to receive terrestrial television using format DVB-T (Digital Video Broadcasting - Terrestrial), digital receivers to receive terrestrial television using format ISDB-T /SBTV (Integrated Services Digital Broadcasting/Sistema Brasileiro De Televisao Digital) and satellite digital receiver; radio transmitting apparatus; aircraft and space electronic equipment, rocket guidance and control equipment, radio navigation and radar equipment, defense electronic systems, mobile and portable radio equipment, pagers, phones, smartphones, cellular phones, mobile phones, personal digital assistants (PDAs), facsimile machines, facsimiles, key telephone systems, cordless telephone sets, computers, computer hardware, electronic computers, mainframe computers, small business computers, personal computers, laptop computers, tablet computers, notebook computers, car navigation computers, supercomputers, workstations, computer workstations, computer software; computer application software; computer software for use in computer graphics, interactive video and virtual reality; graphic user interface software; computer software in the field of energy consumption for use in tracking, monitoring, controlling and managing energy consumption; computer software for use in controlling, managing, and monitoring power storage systems; computer hardware and software used for the control of voice controlled information and communication devices; computer software for use in controlling, managing, and monitoring computer systems and networks; computer software for use in exchanging, distributing, transmitting, sharing, receiving, downloading, displaying, transferring, uploading, editing, collecting, managing, sending, organizing and storing data, information, software applications and geographical and location information; computer software for use in transmitting, accessing, organizing and managing of text messaging, instant messaging and text; downloadable software in the nature of a mobile application for social networking; computer software for software defined networking (SDN), namely, for implementing a computer network

protocol that facilitates the control of network switches, routers, firewalls, and wireless access points; computer software for software defined networking (SDN), namely, for enabling the access to computer network services through external programming interfaces; computer software for arranging paperless meetings; computer software that allows multiple users to view, edit, discuss and manipulate documents via local and global computer information networks; computer software for use in controlling the operation and execution of computer systems, programs, and networks; computer software, namely a set of computer systems, namely pre-integrated and optimized computer processors, storage servers, network equipment and computer peripherals; computer software for data management for computer goods; computer software for use in connecting disparate computer networks and systems; software for controlling robotics and robots; computer operating system software; computer software for linking together computers and for enabling computing across a globally accessible network; computer software for use in developing computer programs, computer applications and computer software architecture; computer software for managing hardware, software and processes that exist within an information technology environment; computer hardware and computer software for use in database management, for use in transaction processing, and for use in the operation and execution of applications and system management, namely, a family of computing systems, namely, pre-integrated and optimized computer processors, storage servers, computer networking hardware and peripherals; computer hardware and computer software for virtualization; computer software for data management; computer hardware and computer software, namely, computer infrastructure systems, computer architecture platform systems, and computer network business systems and software for providing built-in expertise, integration and tuning for a particular workload, and delivery of a simplified user experience; computer application software for organizing and viewing digital images and photographs for computers, portable computers, mobile phones, cellular phones, smart phones and mobile hand held devices; computer software for recognizing and analyzing images; computer software for providing detailed information on a wide range of subjects that appear in photos taken with mobile devices; computer software to receive, transport, encode, decode, decrypt, encrypt, transmit, multiplex, de-multiplex, and manipulate video and other data in digital format to deliver television and other video programming to appropriate video devices for distribution of television programming for viewing on television sets; computer software for biometric systems for the identification and authentication of persons; computer software and analysis devices for use in measuring the affinity of interface nano-bio; computer software and analysis devices for use in modeling of peptide-silica interaction based on four-body corrected fragment molecular orbital (FMO4) calculations; computer software for workflows, and shared workspaces for the purposes of product lifecycle management (PLM), collaboration, configuration and change management, requirements management, and manufacturing planning; computer hardware and software used for processing electronic money transactions; computer software for electronic money management, accessing bank account information, and bank transactions, namely, computer software for use with integrated circuit chips, chip cards, and chip card reading devices, namely, smart card readers, radio frequency identification readers and biometric optical readers; computer software for use in voice recognition; computer peripherals and terminals, computer peripheral devices, keyboards, computer keyboards, computer mouse, mouse pads, word processors, printers, computer output printers, servers, computer servers, computer operating systems, comprised of multiple servers, motherboards and storage units, memory cards, hard drives, SCSI cards, disk storages, disc storage containers, hard disk drives (HDD), CD-ROM drives, CD-Recordable drives, CD-Rewritable drives, DVD-ROM drives, Rewritable DVD drives, monitors, computer monitors, projectors, multimedia projectors, displays, computer displays, computer display panels, color plasma display panels, head-mounted video displays, computer networking hardware, computer network switches, computer network hubs, modems, routers, computer network routers, optical disk players, power supplies and system cooling fans, CAD/CAM and CAE systems, automated fingerprint identification system, biometric device for providing identification and/or authentication of persons; optical sensors for the identification and authentication of persons; fingerprint and/or finger vein scanners; fingerprint and/or finger vein imagers; fingerprint and/or finger vein authentication system; scientific equipment, instruments and apparatus, namely, peptide and other protein sequences synthesizers, automated sample management equipment and data collection computer hardware for use therewith and operating computer software, all for use in the field of primary medical, biological and chemical research and analysis; medical electronic equipment, telemetry and remote control systems, communication network control systems, building automation systems, educational electronic equipment, postal automation systems, industrial robots, computerized numerical control equipment, underwater ultrasonic application equipment, semiconductor manufacturing equipment and vacuum equipment, measuring and testing systems, memories, computer memories, microcomputers, gate arrays, standard cells, semiconductors,

integrated circuits (ICs), integrated circuit chips, integrated circuit modules, integrated circuit packages, hybrid integrated circuits (HICs), IC cards, IC tags, interposers, application specific integrated circuits (ASICs), large scale integration (LSI), large scale integrated circuits, memory modules, read only memories (ROMs), random access memories (RAMs), static random access memories (SRAMs), dynamic random access memories (DRAMs), programmable read only memories (PROMs), erasable programmable read only memories (EPROMs), electrically erasable programmable read only memories (EEPROMs), field programmable read only memories (FPGAs), central processing units (CPUs), charge-coupled devices (CCDs), transistors, gallium arsenide field-effect transistors, diodes, light emitting diodes (LEDs), display tubes, fluorescent indicator panels, electroluminescent lighting panels, liquid crystal displays (LCD), light emitting diode displays, printed wiring boards (PWBs), electronic tuners, laser application equipment, capacitors, condensers, relays, repeaters, amplifiers, transmitters, cables, hermetic seals, electron tubes, gas lasers, resistors, variable resistors, electrical connectors, electric parts; electric parts made piezoceramic and nickel-titanium alloy; permanent magnets; electric magnets; EMC (electromagnetic compatibility) components, namely, inductors, coils, chip beads, varistors, and electromagnetic shield materials; ferrite cores; high-frequency electromagnetic noise suppressor; sensors, namely magnetic direct current sensors, temperature sensors, pyroelectric infrared sensors, infrared sensors, current sensors and magnetic sensors; electric switches, namely, temperature responsive reed switches; apparatus for analyzing digital images; transceiver modules; encoders; codecs, namely, video codecs, universal codecs, audio codecs and voice codecs; converters; television receivers, direct broadcasting satellite receivers, extended-definition television and radio receivers, video cassette recorders, compact disk players, surround amplifiers/decoders, video game units, kitchen appliances; batteries; glow lamps, glow switches, starters for fluorescent lamps and glow lamps; parts and fitting for all the aforesaid goods; scientific, nautical, surveying, electric, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus for recording, transmission or reproduction of sound or image; magnetic data carriers, recording discs; digital video discs and optical discs, pre-recorded audio, visual and video image digital video discs and optical discs; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment; fire-extinguishing apparatus; radios; MP3 players; headphones; videotapes; computer interface boards; interfaces and peripheral devices for computers; computer network interface devices; electronic blackboards; bar code scanners; automatic cash registers; electronic equipment for point-of-sales (POS) systems, namely, point-of-sale terminals, bar code readers, optical readers, advertisement display monitors, keyboards, printers, scanners, radio transmitters, radio receivers, computer hardware, and computer operating software; mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for collection and management of data; mobile data terminal (MDT); wireless communication device featuring voice, data and image transmission including voice, text and picture messaging, a video and still image camera, also functional to purchase music, games, video and software applications over the air for downloading to the device; measuring devices, electric frequency meters; spectrum analyzer; computing equipment, namely, storage apparatus; computer storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; electronic apparatus for recording, transmitting and reproducing sound and images; wireless controller to monitor and control the functioning of other electronic devices; devices for wireless radio transmission; radio frequency identification (RFID) credentials, namely, cards and tags, and readers for radio frequency identification credentials; electronic hardware for interfacing a computer with near field communication devices, namely, RFID tags, RFID stickers, RFID cards, RFID readers, smart card readers, and NFC readers, namely, near field communication (NFC) technology-enabled readers; communications devices, namely, radio transceiver modules for 900 MHz, FHSS, GSM, 1xRTT, LTE and ZigBee, POTS modem and ethernet; modules for use in near field communication; infrared cameras; batteries, battery chargers and battery boxes; batteries and battery chargers for use in electric cars; accumulators, lithium-ion batteries, rechargeable batteries, battery packs, battery modules, electrical storage batteries, rechargeable storage batteries, battery cells, electrodes; electric power storage systems; energy storage and supply systems comprised primarily of electric storage batteries and power supplies; power-supply machines and apparatus, namely, electrical power supplies, electrical storage batteries, charge controllers and inverters, power distributing boxes and power cables; visualizers and indicators, namely, electrical devices for use in visualizing electric power consumption; robots for personal or educational or hobby use and structural parts therefor; robots for entertainment use and instructional manuals sold as a unit therewith; in Int. Class 9.
